Promoting the General Welfare

EDITOR'S NOTE: This is an introductory to a series the *Avalanche* will be running concerning the Welfare system in Michigan.

By Maureen McNamara

There are few people in this country who would not agree that there is an urgent need for welfare reform. The present system, even though it has one of the noblest objectives - to help those in need in the hope and belief that those helped who are physically and mentally able will, as a consequence, be able to help themselves eventually - is hindered by many defects. In fact, to quote a famous person I once heard, "When you are waist deep in alligators, it's hard to remember that your primary purpose for being there was to drain the swamp."

In many ways, this is what

has happened with some of the most well-intentioned programs in the Welfare system. The reasons are many and complex. It is difficult to evaluate progress when working with human beings. Accomplishments in the Department of Social Services cannot be measured by concrete statistics such as the State Highway Department - (pardon the pun).

To attempt to explain how and why our present welfare situation has arrived at the stage it is at now would take volumes, and no doubt be filled with disagreements from sociologists, psychologists, and anthropologists, not to mention politicians. However, with the permis-

Dr. Rosi Named Physicians Chairman For Hospital Fund Drive

by Joe Schrader

Dr. Tomlin C. Rosi, who has practiced medicine here in Grayling the past four years, associated with the Keyport Clinic, has been named Physician's Chairman in the upcoming Mercy Hospital Fund-raising Campaign. The appointment of Dr. Rosi to this post marks another valuable addition to a six-county campaign designed to raise \$500,000 towards the facility's \$8 million dollar expansion move.

Dr. Rosi, who will be assisted by Co-Chairman Dr. Donald Burkley, also of Grayling, will be responsible for coordinating the Physician's Campaign and will act as a liaison in that segment of Mercy Hospital's Fund Drive.

"Our goal is silent at this point," commented Dr. Rosi last week, "but the hospital deserves our support and our [See Dr. Rosi on page 16]

Dr. Meaker Visits Grayling 101 Years Old And Still Going Strong ...

by Joe Schrader

"I behaved myself most of the time," commented Dr. Stanley R. Meaker last week, "and that I pretty much attribute to my long life." Dr. Meaker observed his 101st birthday on July 3rd while visiting this summer at his daughter-in-law's residence, Mrs. Robert Meaker, on Spruce Street here in Grayling.

An avid musician, whose life-long hobby also includes wood and ivory carving, Dr. Meaker spent his professional career practicing osteopathic medicine and dentistry in the mid-south and southeastern U. S. He's still spry, active and displays intelligence and wit at an unbelievable level. On his 100th and 101st birthdays, Dr. Meaker received letters of congratulation from President Jimmy Carter.

Dr. Meaker received his first medical degree in Dentistry from the University of Pennsylvania in 1900. He followed that up with a Doctorate in Osteopathic Medicine in 1904 in Kirksville, Missouri, where the first school in Osteopathic Medicine originated.

"My primary hobby is music - I played cello for four years with the Philadelphia Orchestra and my biggest contribution was helping reorganize the orchestra to a professional status by becoming an orchestra 'drop-out'. Just a sample of his on-going wit and personality.

In addition to practicing osteopathic medicine and dentistry in Auburn, N.Y., Chalanoga and Gallinburg, Tennessee, Dr. Meaker served as Supervisor of Oral Hygiene for the State Dept. of Education in New York from 1920 to 1930. He placed first in the State Civil Service Exam amongst all applicants prior to his appointment to the post. "I traveled statewide," he reminisced, "in that position, and I talked with school systems to emphasize the importance of hygiene amongst children. I guess in my years of practice I cared most for children."

Just this past May, Dr. Meaker went to Philadelphia to celebrate the 100th Anniversary of the University of Pennsylvania's Dental Dept. It was his third trip to the University for an Anniversary Celebration and he was the oldest to attend this year.

He's now in the process of writing his autobiography which will include memoirs of receiving Eugene Ormandy's autograph along with some 150 other world-wide known musicians. He'll resume work on that project when he travels home soon to Fairhope, Alabama, where they observed a "Dr. Meaker Day" for him on his 100th birthday.

He's just a remarkably active and alert man - and a delight to visit with. We fully expect to see him taking his daily walk along city streets here in town again next year.

State Police in Operation CARE

Over Labor Day Weekend

Michigan State Police emphasis on traffic safety for the Labor Day holiday weekend, September 1 through 4.

Opening On City Council

Interested in entering the world of politics? Want to wet your feet at the City level?

The Grayling City Council is seeking qualified persons who wish to serve as a city council person. This appointment is to fill the vacancy created by the resignation, submitted at Monday night's meeting, of Helen Johnson, effective immediately.

Interested citizens are requested to obtain an application at the city office and return each completed application to the office at 103 James Street no later than 5:00 p.m. on September 11th.

Co-op Nursery Orientation Dates Set

On the 6th, 7th, and 8th of September, the Grayling Co-operative Nursery School, a privately operated non-profit facility, is having its orientation programs for new and returning students and their parents.

The evening of September 6th at 7:30 p.m., Grayling Elementary School Gym, there will be an orientation program for parents. At this time parents will receive their child's class assignment health forms and physical appointments and sign up for their child's school visitation.

Also at this time the nursery school curriculum will be introduced and explained by Mrs. Kay Colbeck, the nursery school instructor. Following will be a discussion by the nursery school executive board of the year's fund-raising projects and the federally subsidized snack program, a new addition to the nursery school.

On September 7th parents and their child will make a visitation by appointment to the nursery school facility. Mrs. Colbeck will have a short "get acquainted" program for each child with his parents.

On the 8th of September, three year olds and new four year old students will receive physical examinations by appointment at the offices of Drs. Dosch, Burkley, and Waterfall.

Nursery school classes begin on the following Monday, September 11. Although the classes are filling, there are still some openings in the three year old classes. For more information, call Mrs. Betty Rhinehart, 348-8803.

will again include their participation in "OPERATION CARE", according to Col. Gerald L. Hough, department director.

Hough said the acronym, "CARE", represents "combined accident reduction effort", a safety campaign now observed nationally and one that has helped Michigan hold the line or reduce traffic accident casualties during some warm weather holiday periods.

"CARE" through federal fund assistance will enable the State Police to field some extra patrols. This has amounted to as many as 700 extra patrol shifts in recent holiday periods. The patrols will be in effect for the 78-hour period which begins at 6 p.m. Friday, September 1.

Traffic accidents claimed only 18 lives during the 78-hour Labor Day weekend last year, a reduction of 13 compared with the same period in 1976 and a decrease credited to Michigan's "CARE" effort.

In his two-part safety appeal to Michigan residents and visitors for the Labor Day weekend, Hough urged motorists, pedestrians and bicyclists to give proper attention to traffic rules in cooperating with police patrols and reminded all residents of the state that the holiday period marks the reopening of schools and the accompanying need for attention to student safety on foot and in traffic.

Hough also urged Michigan residents and visitors to observe safety precautions in any water activities during the holiday weekend. Carelessness and disregard of safety rules can cause tragedies in water sports, he said, just as they do in traffic activity.

KCC Library Offers New Index to Articles in Magazines

The Kirtland Community College Library has just installed "The Magazine Index," a new service that will enable the public to search quickly an index of all of the articles that have recently appeared in 372 of the most popular magazines. According to Stuart Lawrence, Director of the KCC Library, the search can be made by subject, product name, author and other "key words". Photo-copies of the desired articles can be obtained at the library.

The Magazine Index pre-

sently contains an index to all of the articles, reports, editorials on major issues, product evaluations, biographical pieces, short stories, poetry, recipes and reviews of all types. The file is on microfilm for most convenient use by library patrons. Every other month, the file will be expanded until it contains five full years of information.

A 22-ft. high decorator roof sign is shown here being lifted into place at the Hotel and was well-lit for everyone to see over this past weekend. According to Hotel Manager Arnie Mauren, the brace holding the sign was estimated at about 2 1/2 tons and the sign itself, weighs about a ton. About Town With Fay

By Fay Bovee

Someone will have to loan me a backpack, hiking boots and a map, so that I can spend next summer "strolling" and commenting on all the flowers that seem to have sprung up everywhere.

Sorry that Eagle Point isn't on the route between my house and the business district! I hear they have flowers out there too!

Who said Graylingites didn't have pride in their community? My experience this summer proves that they do.

When Professional Realty planted flowers, they really did it! More flowers on the South Side, at a neat home at 204 Mikarlo and two luscious vegetable gardens, one at Broadbents and another at Dave Cooks.

There's a new home on Madison Street and another one completely renovated. Over on Ionia, the Gary McLaughlin's house has been repainted yellow with black trim and the Martha Austin home has a new roof and cement work being done.

And my favorite topic... sidewalks, a new one by Jim McClains' on Ogumaw and another on Peninsular in front of Leon Rochette's recently relocated home. Mrs. Charles Tinker on Park has a planter full of flowers, the Oscar Smiths on Maple St. have a lovely display of marigolds and impatiens and Rosamund Wakeley on Maple also has bright blooms in front. More next week on the new mini-park.

I had a newsy letter from the Allan Stevenson's, '44, and a brochure on their new apartment complex in Bradenton Beach, Fla. Without sounding like a commercial... it is beautiful.

A welcome visitor to the office was Rev. Richard Bielski, Lavonia, Ga., here for his 30th reunion. Richard and I go back a long way as former neighbors.

We add Carl Doroh, '17 and Wesley LaGrow, '24, to our Memorial Roll. Both were great friends.

On Saturday, August 26, we had a Membership Luncheon at Chief Shoppengauz's Hotel. It was a "first" and we decided there will be more. After lunch we took a quick tour of the Middle School which was High School to us. That building has held its own against all the use of thousands of footsteps.

Now we go on with our final plans for the Annual Homecoming on October 21. Keep the date in mind.

Again we ask for information on the following persons:

From Our
Corner ...

Once upon a time there was this young skinny guy who thought he would like to become an editor of a small newspaper ... this was only through association with a small town newspaper with which he was the printer's devil ... and would stand and listen every Wednesday to the editor as he left for the golf course or ski hills ... now that this week's issue is out, you can return to the basement, and melt the lead so we will be ready for next week's paper, he would tell us ...

Now as the years have passed, and with association with a couple friends which include ex-basketball coaches, the skinny guy referred to has gained a few pounds ... attained his wishes ... and at this present time Monday evening, we have thoughts about melting lead in the basement ... we thought that was bad, no way, filling a column such as we have, is like grabbing a tiger by the tail ... you don't dare let go ...

We've had fun bringing our corner to our readers ... the problem, there are many times the mind goes blank, there is nothing that we can think of that will interest our readers ... this is when we wish we were the printer's devil.

Sunday afternoon we were out taking a few pictures on main street, and our happy moon-faced friend that runs Southend Total yelled and asked if our column was finished ... now if he had been to church you would think he knew what day it was ... everyone knows it is Monday night we struggle ...

As we sit here tonight it is hard to believe that this time next week will be the end of Labor Day weekend, and the summer vacations will be winding down, and everyone will be thinking school and college time ... the pigskins will be in the air ... it is a refreshing thought ... fall in our little hamlet has to be one of the most wonderful times of the year.

Come to think about it, we're going to have to figure something out for next Monday evening to keep our faithful readers tuned to our corner ... possibly we may call on Cobra to fill our space with a drawing of us relaxing, horizontal, our favorite position ... we have always told Thelma, it takes a lot of rest to make us tired.

In case you didn't notice, we left last night without putting the final touches on our corner ... it was on purpose, as we couldn't come up with something appropriate to state that we will be losing our right hand gal in the front office who has been with us for some nine years ... Helen Johnson started with us shortly after we took over from Bob and Eva Strong and has handled the books besides doing a lot of writing. We will miss her, but wish her well in her new position with the city.

We were asked Monday afternoon how everything was with our family in California ... they stated they knew how T. J. and Stef were getting along, but said they wondered about Amber out west? We talked to Dane Sunday evening and wish to relate everything is fine in sunny Cal. Thanks Skip, you gave me the out to end this week's struggle the way we usually do ... Have a safe, sane weekend, we want to see your smiling face after Labor Day ...

The Bible Speaks

From Calvary Baptist Church

The First Resurrection
Revelation 20:4-6

The Bible makes it plain that there are two resurrections separated by at least 1000 years. The first resurrection is for the saved, and the second for the lost. The first resurrection is made up of three parts which you may call the first fruits, main harvest and the gleanings.

The first fruits of the first resurrection took place with the resurrection of our Lord Jesus Christ and the saints who arose with Him, Matthew 27:52,53. The main harvest will be the resurrection of the church at the close of our present age. This will include all believers from Pentecost to the Rapture. Details of this part of the resurrection are given in I Thessalonians 4:13-18.

The third part of the first resurrection took place when Christ returns to earth at the close of the Great Tribulation. This will be made up of Old Testament saints, Daniel 12:1,2, and Saints saved and martyred during the Great Tribulation. The latter group are described in today's scripture. They "were beheaded for the witness of Jesus, and for the word of God, and which had not worshipped the beast, neither his image, neither had received his mark upon their foreheads, or in their hands."

The saints of the first resurrection are resurrected to reign with Christ: "and they lived and reigned with Christ a thousand years." Verse 4. They are resurrected under God's blessing rather than His wrath. They are declared holy rather than sinful because of their relationship to Jesus Christ and His shed blood for their sins. "Blessed and holy is he that hath part in the first resurrec-

tion: on such the second death hath no power." They are not only resurrected as blessed and holy, but they are assured they will never face the torments of eternal death or hell. They shall hold the high offices being called "priests of God."

People somehow get the mistaken idea that someday there will be a general resurrection where all people will face a general judgment to see if they are saved or lost. They believe their good works will be weighed against their bad works and if the good outweigh the bad they will be saved to enter Heaven.

This is Satan's religion of works which is leading men and women to Hell. If this were true the entire life, death, burial and resurrection of our Lord Jesus Christ would be in vain; an empty, gigantic joke.

My friend what you do with Jesus Christ in this life now seals your eternal destiny. "He that believeth on the Son hath everlasting life: and he that believeth not the Son shall not see life: but the wrath of God abideth on him." John 3:36. "He that hath the Son hath life; and he that hath not the Son of God hath not life. These things have I written unto you that believe on the name of the Son of God: that ye may know that ye have eternal life, and that ye may believe on the name of the Son of God." I John 5:12, 13. Life in Liberia

John and Ella Wiley of Mt. Pleasant, Mich. will be at the Grayling Reorganized Church of Jesus Christ of Latter Day Saints on Sunday evening, September 3rd at 6:00 p.m. They will be showing slides and telling of the experiences they encountered during their 14-month stay in Liberia, West Africa.

They went as self-sustaining volunteers to help establish a Liberia church-sponsored elementary and Jr. High School. Both are well qualified for the task. Brother Wiley, a patriarch-evangelist in the RLDS Church has distinguished himself among Michigan educators as a school principal, and sister Wiley is a gifted non-professional teacher and an effective and skillful leader of vocal music. Before going, they were told their duties would be consultants for the elementary and junior high school, but soon learned after arriving this in-

cluded helping to complete the unfinished school building, interviewing and hiring teachers, purchasing books, and enrolling approximately 170 students.

On April 7, 1978 during the Church World Conference, the Wileys were honored for their service to the church.

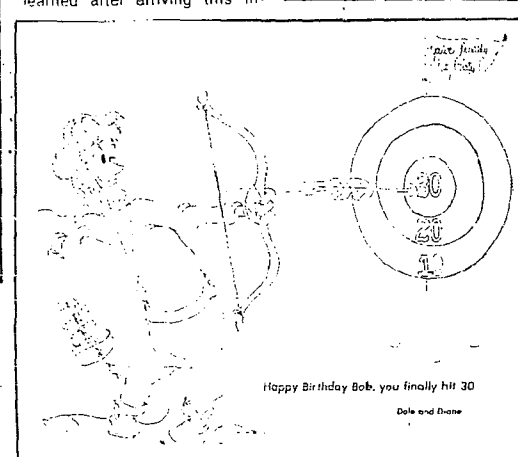

Everyone is cordially invited to come listen and visit with Sister and Brother Wiley.

"Good News" Coming to Grayling

The Good News Circle is coming to the Grayling Area for a Special Good News Circle Crusade. September 10-14th, at the Joseph Stripe Auditorium, being sponsored by Area Churches and Businesses.

Who are the Good News Circle? They come in the

form of Five Young People from the Chicago area. They sing, they play instruments, and they spread the Word of the Bible. They don't preach, they share their experiences, and they entertain in the process.

The Good News Circle is bright, exuberant, fun-loving, yet serious and totally dedicated to what they are doing. "Refreshing" might be the best single word to describe them.

The Good News Circle is committed to proclaiming

God's Good News in both music and spoken Word. They have sung at Crusades sponsored by groups such as Billy Graham Evangelistic Association, but the bulk of the schedule consists of school assemblies, concerts and their own Evangelistic Crusades.

They have been scheduled for Grayling, Roscommon and other schools in this area. The co-chairmen for the September Crusade are Ronald E. Larson and Denny Freeman.

SINCERE THANKS

We wish to take this opportunity to thank all of the people who gave unselfishly of their time and money, to assure that the benefit canoe race for Julie, myself, and our family, would turn out to be the complete success that it was.

Because of the wonderful response of the community, we now have a brand new Ashley wood stove in our living room and the material to build a chimney. This combined with the firewood, which is being stacked in the back yard, will make the long winter days seem much shorter.

Once again, our sincere thanks and all of our best wishes.

In response to Senator Young's article on energy, I feel compelled to comment. It really is a shame to hear our politicians squabbling over the oil crisis and blaming all our problems on the money-hungry leaders of the OPEC nations. For those who care to dig deeper than the usual newspaper or television programs, the truth can be found.

The problem is not with the OPEC nations. The very root of our energy shortage lies within the boundaries of the United States. Every year our tax dollars have been taken to pay hand-some wages to economists working for the government and their advisers who have supposedly been able to predict the oil crisis and energy crisis we are currently embroiled in.

What went wrong?
How is it that virtually overnight our gasoline increases some 50 to 60 percent? Where the hell were the forecasters? And how is it that a country which imports only 11% of its crude oil from the OPEC countries has been brought out cold by an oil embargo? Did you know that in the first year of the embargo Texas's profits were up 100%? They claimed that the increase was due to a shortage of oil. The bottom line in this instance is self-interest.

Much of the remainder of our imported oil comes from South America, specifically Venezuela. Most of the oil received from South America is either directly or indirectly owned by American firms. The controlling shares of these firms are owned by an elite group of American millionaires, the most famous being Nelson Rockefeller.

So while the average American is venting his anger on the OPEC nations many wealthy Americans are quietly reaping a fortune. The actions of the OPEC countries is actually a boon for the Rockefeller's and others in America.

I think Senator Young and the others in the political club should get off the OPEC scapegoat and get on with the real solutions to the energy problem: the development of alternate fuel sources. The burning of fossil fuels is a temporary luxury.

Sincerely,
John N. Brozo III

Dear George,
I'm reaching the end of my rope. Most of the money I've earned went to detectives paid to find you. They didn't come up with one clue on your whereabouts. Mama says you're just a nobody so no wonder they found nothing.

George, please come home! I got a letter from Mr. Klinger and it says Pavel needs counseling. That poor boy needs a father to guide him in his last year of high school. He's trying so hard to make the football team also. I know Mr. Branch will kick him off the team if he doesn't run faster. Those warts on his big toe don't help and you are the one responsible for them you know.

The only thing that keeps me sane is my job at the Scrub Board Laundromat & dry cleaners. I've met people from all over the ward that come to the Scrub Board to get a fresh start. It gives me so much joy to serve them.

George, come & see the new washing machines they just put in. They are front load washing machines. Poor Mr. Kelly worked so hard putting in the base for them to set on. He knows a lot about repairing machines but doesn't know beans about pouring cement. All my love, Edith

Incumbents usually have advantage

Voters show contrary nature

Richard Milliman

The dust is about settled after the recent primary election; it usually takes about this long for political dust to simmer down.

The dust is about settled after the

One conclusion that can be drawn is that the incumbent usually holds a real advantage in any primary election.

There are contradictions, of course, which help to prove the rule—like up in Crawford County, where every incumbent member of the County Board of Commissioners who had primary opposition got whipped.

But in the Michigan Legislature, on the other hand, incumbents lost four direct challenges (out of 148 seats up for grabs) and the Congressional death knell for incumbents nationwide was equally as near-silent.

And yet, if you ask the average voter if his state legislature or the Congress is doing a good job, the answer would be a resounding "no." Voters get persnickety that way.

A recent Associated Press-NBC poll showed the same results. The poll asked 1,600 adults to rate Congress, and only 20 percent found Congress doing a "good" or "excellent" job; 76 percent, on the contrary, felt congressional work was "poor" or "only fair."

However, 47 percent of those polled gave their own representative high marks, and only 45 percent handed out "poor" or "only fair" marks.

Of course, most voters feel they know their own Congressman or Legislator, and that he/she couldn't be part of that mess down in Lansing or Washington, instead, the trouble is with all those other guys.

The recent election returns certainly bear out the poll. There must be a moral in this message somewhere—maybe something about the voters seeing the trees instead of the forest, or something like that.

I remember one remark from a Republican Congressman about the late Sen. Joe McCarthy in his red-baiting days. The Congressman differed strongly with McCarthy—but only in private. In public, he praised McCarthy.

"Sure, he's an SOB," the Congressman explained in private. "But he's our SOB, not theirs."

The same AP-NBC poll, in another area, indicated that the public's awareness of the difference between the two major parties may be blurring somewhat.

The poll indicated that on three major issues—taxes, prosperity and war, Americans don't see any significant major differences between the two parties.

Which party would do better keeping the country prosperous, the poll asked; 41 percent said Democrats, 38 percent picked Republicans. Which party would do better holding down taxes? 31 percent said Democrats, 29 percent said Republicans. Which party would do better in keeping us out of war? This time the Republicans were on top, but only 41 to 35 percent.

Again, the poll seems to carry out the oft-quoted remark by that modern day political statesman, Alabama's George Wallace, that "there's not a nickel's worth of difference" between the Republicans and the Democrats. The public seems to agree.

Enough of polls. Let's close with some wit-and-wisdom, or some Nuts and Jolts, from old friend Hod Shewell:

—The best safety device on any car is its driver.

—About the only time jogging makes sense is when the bathroom's busy.

—People don't talk so much any more about their operation, just the cost of it.

—An optimist is the bridegroom who thinks he's marrying a silent partner.

—If the churches received all the donations declared on income tax returns, they could bury their collection plates.

—The only thing a fisherman wants to learn about the metric system is how to measure his catch a half-foot longer.

—The only people who can afford rich food today are those who shouldn't be eating it.

—Didja hear about the confused theater patron? He thought "The Sextette from Lucia" was an X-rated opera.

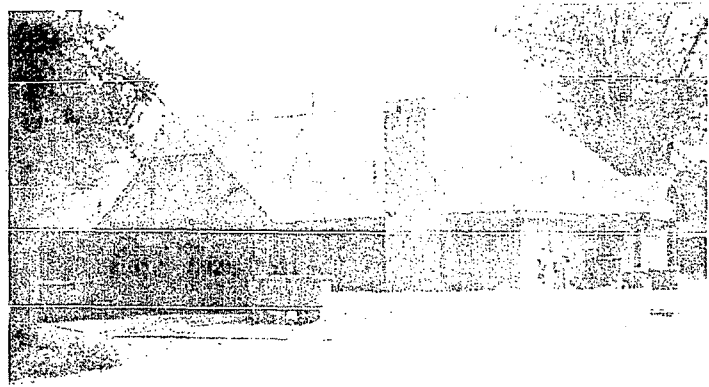

—One reason country music is so popular in the south is that southerners usually enjoy a little hominy.

Awarded Legion of Merit

FORT MONROE, VA. — Col. Ronald G. Komornik, son of Mr. and Mrs. George Komornik, Route 3, Grayling, recently was presented the Legion of Merit at Fort Monroe, Va.

The Legion of Merit is the nation's second highest award for outstanding service while a member of the Armed Forces. Established by Congress in 1942, the medal is awarded to an individual for either a single instance of success in a difficult assignment or for a succession of achievements in many different tasks over a long period of time.

Komornik received the award while assigned to the U.S. Army Training and Doctrine Command at Fort Monroe, Va.

His previous decorations include two awards of the Meritorious Service Medal.

The colonel entered the Army in March 1953.

He attended the University of Detroit (Mich.), Benedictine College, Atchison, Kan. and received a bachelor's degree in 1968.

His wife, Jeanne, lives in Virginia Beach, Va.

ABWA News

A dire need for volunteers to work in all areas at Camp Shawano was imparted to ABWA members at their monthly meeting, August 15th at the Grayling House. Julia Krell, a member of the Citizens Advisory Committee, along with Al Kidd, a resident at the camp, presented slides and interesting information concerning the routine at Camp Shawano, which provides minimum security for up to 50 youths, ages 14 to 17. It is here that delinquent boys are given a second chance. The boys must complete some vocational course before they can be released and the average stay is six months. Many boys study in order to write their G.E.D. exam, which gives them the equivalent of a high school diploma. If anyone could spare a few hours, it would be used to good advantage to make their free time pass more quickly.

Vocational speaker was Connie Creighton, presently employed at Mercy Hospital as Nursing Service Secretary. Connie started by saying "Typing is a girl's best friend." And this is true in her case, as she has held many interesting positions. She graduated from Detroit Business Institute and worked for the U.S. Immigration Service as hearings stenographer and later as radio operator for Border Patrol. She attended technical radio school in Kansas City and worked at a radio station in Pueblo, Colorado. After more unique positions, she moved to Higgins Lake and still feels typing is her thing.

The birthdays of Marilyn Longworth, Jini Hindmarsh, Joan Shively, Margaret Lesinski and Barb Hazen were celebrated lustily in song.

President Betty Bennett conducted a business meeting with discussions of by-laws for scholarships, our support of the Milltown Festival next year and announced that next month's speaker will be Dorothy Brooks, whose topic will be "Death and Dying". The auditing and nominating committees are hard at work and election of new officers will take place next month. Thirty-five members and five guests participated in the meeting.

TURN ON

Road Commission Minutes

August 18, 1978

A regular meeting of the Crawford County Road Commission held in their office in Grayling, Chairman LeRoy Millikin presiding. Present were Chairman LeRoy Millikin, Commissioners Ervin E. Richter and Grover Cason, Engineer Ron Henke, and Secretary Lorna Bernard. Absent none.

The minutes of the previous meeting were read. A motion was made by Grover Cason, seconded by Ervin Richter that the minutes be approved as read.

Voucher No. 652 for payroll No. 17 for \$17,776.82 and Vouchers No. 653 to 703 for materials in the amount of \$58,603.88 were presented to the board for approval. Ervin Richter made a motion and seconded by Grover Cason that the vouchers be approved and paid. All voted in favor.

Mike Hasynic from Wakeley Bridge Rd. appeared before the board regarding a culvert in front of his driveway. A letter sent to him prior to this meeting had not been received by him stating that there would be a culvert put in front of his home before the road was finished.

Matthew Bidvia, Crawford County Commissioner, appeared before the board in regard to a complaint he had received about the blacktop that is being disposed of at Dead Mans Curve. It was discussed and decided by the board that the location would be changed for the disposal of the remaining blacktop.

Cliff Henderlong, shop Foreman appeared before the board discussing the need for a new dump box for one of the new trucks. He also discussed who was to take his place when he was not in the shop.

Fred Schabily, Lovells Township Supervisor, appeared before the board in regard to one of the 1979 projects and the need for gravel at that time. The board discussed the situation and decided that we will too be needing gravel in the spring and when we have some made there we would call them and they could have theirs made at the same time and stock pile for themselves.

Ron Henke, Engineer discussed with the board about M1. Frederic Rd. in the Township of Frederic about Top O' Michigan requesting a 3-phase line on the right of way on the road. The Board instructed him that as soon as they submit their permit they can begin work on the lines.

A resolution was then read by Commissioner Richter. WHEREAS The Michigan Department of Natural Resources desires Crawford County to vacate various roads in Hartwick Pines and WHEREAS Crawford County held a public hearing in 1978, listened to and received comments from the public and WHEREAS, since the public hearing numerous requests from private developers for residences have been received by the Crawford County Road Commission. NOW, THEREFORE, BE IT RESOLVED, that the Crawford County Road Commission has decided not to vacate anymore roads other than previously defined and acted upon in the Hartwick Pines area. This resolution was seconded by LeRoy Millikin and all voted in favor, the motion carried.

The board broke at this time for lunch and convened at 1:00. At this time Bruce Jones, a property owner at Dead Mans Curve, discussed the loss of frontage to his property, also the possibility of purchasing property that belongs to the County directly across from his property. The board told him that he would be notified if the property was ever put up for sale.

Janice Harvey, a property owner on Connors Flat Rd., appeared before the board requesting that the road be widened before winter as she lives up here in the winter and it is very difficult for her to get in and out of her property. The board discussed the situation and told her that this road was already on the agenda for fall work and that more of the road would be improved before winter.

A request was received by Robert L. Cooper to put his job in the rest areas up for bid as he would like to go back on Blades truck. The decision was made by the board that this was OK, and that the change would be subject to the boards approval for the job openings.

The board discussed putting the scrap up for bid and decided to wait until a later date when the old trucks and such could be out of at the same time.

A request was received by LeRoy Nelson, that he had four signs from the Moose Lodge that say "Protect our Children". The board requested that Mr. Nelson submit a permit and it would be discussed at that time.

A letter was received from Bernie Fowler requesting that the completion of the proposed road construction project in Grayling Manor Subdivision. This project is on the agenda at a later time this year.

A permit was received from General Telephone Company requesting to bury a telephone communications cable in the River Forest Subdivision 114 eas of Stecker Bridge Rd. The permit was reviewed and approved by the board.

The board then discussed the possible need for all employees of the Crawford County Road Commission to get physicals once a year.

There being no further business Commissioner Richter voted that the meeting be adjourned, seconded by Commissioner Cason. All voted in favor, meeting adjourned.

Work Force

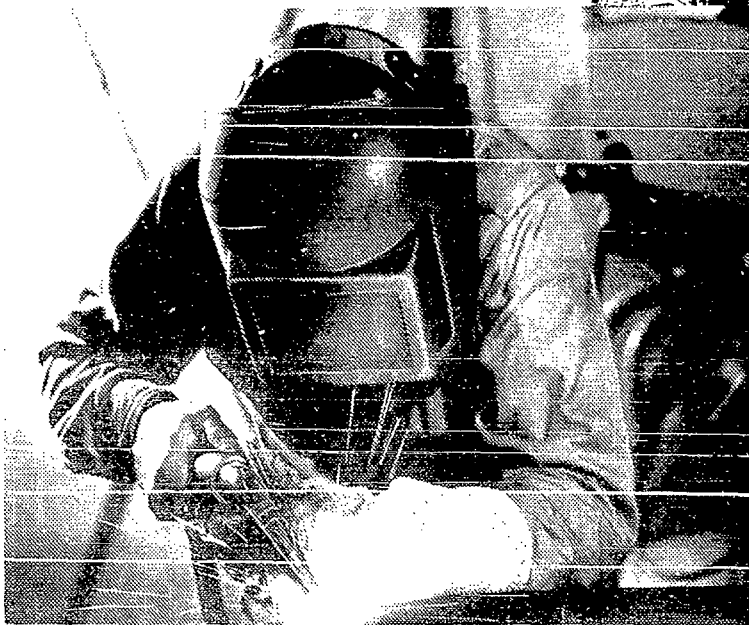

You can make good money at things like riveting or welding, but it isn't always a fun job. There's a tension to it that takes its toll of nerves and muscles.

Lots of jobs aren't fun, aren't even fulfilling. They're just necessary, both for the doers and for the rest of us, who profit by their services.

So what comes after work? Staying home and watching TV, or perhaps a little bit of nothing. It shouldn't be that way; not all that way, certainly.

People do have three facets—mental, physical and spiritual. It's the spiritual part that is the most apt to get shortchanged today, more's the pity. Because that's where the miracles begin.

Start finding that out by going to the church of your choice.

Mr. Porter reported the Annual Plan was near completion. The plan must be submitted by the end of the month. Board members will receive photocopies of the plan.

Thinking about going to college!

Kirtland Community College is one of the fastest growing colleges in northern lower Michigan. Kirtland offers academic, technical and career training for today's student.

The Associate of Arts or Science Degree program is designed to provide students with the basics in Humanities, Social Science, Mathematics, Sciences, Physical Education, and Recreation. The program allows additional elective credits to meet the required 60 hours for an associate degree. This means that you can transfer up to 60 hours earned at Kirtland to a four year college or university and start at the junior level.

If you're a veteran!

Kirtland Community College is approved for VA Education Benefits for all Associate Degree programs. A veteran is eligible if he or she has: 181 days of active service and a discharge under honorable conditions. Benefits expire ten years after the date of separation. Some exceptions made to the above criteria. The amount of the Veteran's Educational Benefits will depend upon the number of dependants claimed and the credit load taken. For more information call Kirtland's Veterans Advisor, Ms. Carole Chilton at 275-5121.

If you're a Senior Citizen!

If you're concerned about the cost of education!

The least expensive way to get your education is to live at home and attend Kirtland, a low tuition community college.

The average cost for one year of college in a public FOUR YEAR institution for Michigan students exceeds \$2,636.00 (This figure is based on living on campus.)

Your family could save THOUSANDS OF DOLLARS in just two years. You can attend Kirtland for \$12.30 per credit hour for tuition. This means a full student load for one semester would only cost \$187.50 for tuition. Why not attend Kirtland and then transfer two years of credit to the four year institution of your choice? (Tuition subject to adjustment, if mandated by the State Legislature.)

An exceedingly valuable guide is "Student Expenses at Post-secondary Institutions, 1974-75," available for \$2.50 from the CSS, College Entrance Examination Board, Box 592, Princeton, N.J. 08540.-----Check out the facts for yourself! Kirtland has the best educational deal you can get for a quality education.

WHEREAS, it has been called to the attention of the Board of Commissioners of Crawford County here assembled that the costs of furnishing attorneys and other professional services to alleged indigent criminal defendants are constantly increasing; and

WHEREAS, the overall costs of providing the services of District, Probate, and Circuit Courts is becoming increasingly burdensome for the taxpayers of Crawford County; and
